Whilst our academies have their own identity and community, they work together as a strong, collaborative family of schools. There are many opportunities for staff to network and share expertise and practice.

We place children at the centre of everything we do, with a focus on creating a culture of success, a positive climate for learning, and increased attainment, achievement and social and emotional development. In raising standards for all children the academy will contribute to the raising of educational standards and achievement generally across the locality through the mutual sharing of knowledge, expertise, and resources from across the education, business and voluntary sectors.
